No Cause, He Says, for War with Germany.

Our Samoan Policy One of Friendship and Neutrality.

He Does Not Think the American Flag Has Been Insulted.

ISPECIAL TO THE EVENING WORLD ! BALTIMORE, Md., Jan. 29. - Secretary Bayard has unbosome! himself freely on the Samoan question to a Sun correspondent,

The Secretary states that the policy of the United States in Samoa is one of friendly interest, and was fully defined by the Admistration long ago.

So far as the other Powers having interests the island-Great Britain and Germanywere concerned he had exhausted the arts of diplomacy to secure the Samoan people the right to govern themselves, and protection from foreign control. Germany and Great Britain both assented to this policy, and the acts of Germany, inconsistent with her professions, have grown out of petty political intrigues among native chiefs, and the rivalry of foreigners for influence and commercial

With spard to the failure of this Government to protest vigorously against Germany's treatment of the Samoan King, Mr. Bayard states that he had no authority for such a course. Malietoa was not a cit zen of the United States, and American rights had in

United States, and American rights had in no way been invaded.

Germany claimed that he had violated his treaty obligations, and that he was an enemy whem she had the right to seize. Mr. Bayard said he did what the treaty with Samoa obligated this country to do. He used the good offices of this country again and again in Ma tetoa's behalf, but without result.

Mr. Bayard states that from the beginning of the Samoan troubles Germany has are

of the Samoan troubles Germany has pro-tested the utmost friendlines: to the United States and regard for American interests on the islands. "Only to-day," said be, "I re-ceived a communication from the German Minister, expressing a sincere desire to reach a settlement satis actory to this country." The whole question for Americans to con-sider, Mr. Bayard says, is whether we shall

sider, Mr. Bayard says, is whether we shall continue to maintain neutrality as between Mataafa and the Germans, or assume the rôle of bedigerents towards Germany in techalf of one of the two claimants to the threne. So far Germany has given the United States absolutely no cause for war. It is not true that American property has been wantonly destroyed by the Germans or the American flag firet upon. The tattered remnants of the flag said to have been fired upon by the Germans has been received at the State Department. It was not the flag at the American Consulate, but was in a little village which was being shelled by the Germans. The village took fire and the flag was partially burned.

It was not hoisted in assertion of American

if re and the flag was partially borned.

It was not hoisted in assertion of American rights, and was not fired upon or insulted. Bosides, the German Government has eaperially discisioned any intention of giving this country cause of offense.

In reply to those who contrast the vigorous course of Secretary Bayard towards the puny Republic of Hayti with his alleged timidity in dealing with the big Empire of Germany, the Secretary said the relations with Hayti

the Secretary said the relations with Hayti and Samoa were widely different. Hayti had distinctly violated the treaty obligations to this country and had seized an American

New Your, Jan. 29, 1889.

To the Public of New Took 1999.

We have decided to sing to the up the various roads on which we are employed until our employees come to a fair understanding with us through our Executive Board.

In accordance with and on behalf of the said employers we submitted on Dec. 31, 1888, a form of an acreement for their favorable consideration, with a letter stating that the Executive Board would call Jan. 7 for their answer. In the meanting these companies called a meeting of their representatives, which meeting they decided to relect the proposal of the new, and further decided in the future not to recognize the representatives of the men. When the Executive Board called at the offices of the various companies for their answers in many cases the proposed afterment warreturned without any reason being assigned therefor, and in other cases to the question as to when the companies would meet the representatives of the men, indefinite replies were given.

The Sixth avenue and forther content is the Frontied without any reason being assigned therefor, and in other cases to the question as to when the companies would never the representatives of the men, indefinite replies were given.

The Sixth avenue and Forty-second street and Boulevard roads refused positively to hold any interview with the Executive Board. The Broadway and Seventh Avenue Company, gave the Committee a copy of resolutions passed by their Board, refusing all intercourse with the Committee on the ground that they were not employees of that Company, although one of the Committee was an employee of that road. The Fourth avenue road, owned by the Vanderbills, which herefore has met the Executive Committee was an employee of that road. The Fourth avenue and treated with it in a fair manner, absolutely refused to enter into any negotiations with the opinion of the roads, as we attend to our own business and don't care what any other road does.
